RESOLUTION NO.: RC-2

COMMITTEE DESIGNATION: RESOLUTIONS

SUBMITTED BY: IUPAT District Council 58, Collinsville, Illinois

SUBJECT: Enforcement of Apprenticeship Ratios

WHEREAS, the International Union of Painters and Allied Trades (IUPAT) acknowledges the essential role of apprentices in maintaining and growing our workforce;

WHEREAS, the IUPAT is currently over 9,000 apprentices short of our 3:1 ratio goal;

WHEREAS, the IUPAT Constitution calls for, and most contracts specify, Apprentice to Journeyman ratios of one (1) Apprentice for every three (3) journeymen, ratios which are critical for the training and development of apprentices;

WHEREAS, yet these ratios are not being consistently observed and the failure to adhere to these ratios has led to an insufficient number of apprentices within our current system, jeopardizing our ability to sustain membership levels and replace retiring and departing Journeymen;

WHEREAS, the current practice of improper ratios has made training the future workforce challenging, thereby placing the future security of the finishing trades in jeopardy;

WHEREAS, this non-compliance limits job opportunities for apprentices resulting in higher costs per apprentice, and reduced retention rates, and has hindered the transfer of knowledge to the next generation of tradespersons;

WHEREAS, we recognize that recruiting the workers of tomorrow is the responsibility of all of us and that there is no better place to do that than with our apprentices;

THEREFORE, BE IT RESOLVED, that all IUPAT District Councils shall work towards the minimum ratio of one apprentice for every three Journeypersons, to ensure a robust and sustainable pipeline of skilled workers;

BE IT FURTHER RESOLVED, that District Council Servicing Departments, in collaboration with contractors, will implement and enforce a comprehensive plan to hold parties accountable for adhering to the agreed apprenticeship ratios as stipulated in contracts and collective bargaining agreements;

BE IT FINALLY RESOLVED, that through the enforcement of these ratios, the IUPAT will enhance the quality of training, lower training costs, improve job opportunities for apprentices, and ensure the vital transfer of knowledge within the trades, securing the future of the finishing trades industry.

SUBMITTED BY: IUPAT District Councils 82 & 36

SUBJECT: Combating Worker Misclassification and Growing Residential Market Share

WHEREAS, the IUPAT is committed to representing all workers within our trades, regardless of demographics, country of origin, or immigration status;

WHEREAS, an increasing number of low-road, non-signatory employers in the US and Canada are adopting exploitative business models that include worker misclassification, wage theft, and the exploitation of immigrant workers and people of color accounting for over \$15 billion stolen annually from workers;

WHEREAS, many of these exploitative employers originate in the residential market before expanding into markets that we traditionally represent, further undermining our ability to negotiate collective bargaining agreements effectively;

WHEREAS, the Bureau of Labor Statics reports that employment in the residential painting and drywall finishing sectors is nearly double that of commercial trades, and as traditional markets like high-rise and office space construction are increasingly being converted to residential fit-outs, there is a significant opportunity for the IUPAT to expand and strengthen its organizing efforts in these rapidly growing sectors;

THEREFORE, BE IT RESOLVED, that the IUPAT is committed to combating worker misclassification and organizing within the residential single-family and multifamily markets, and will develop agreements tailored to regain market density;

BE IT FURTHER RESOLVED, that the IUPAT will dedicate resources to fight worker misclassification wherever it occurs and promote the use of deferred action for labor enforcement as a means to protect workers' rights;

BE IT FINALLY RESOLVED, that the IUPAT will engage in long-term strategic organizing campaigns in both the single-family and multi-family residential markets, in collaboration with the North American Building Trades, by providing grants, organizing assistance, and legal aid to enhance these efforts.

WHEREAS, local governments are significant purchasers of services provided by IUPAT contractors and members, and leveraging local government influence and purchasing power can ensure that infrastructure and services are built and maintained responsibly, reflecting our commitment to quality and safety;

**SUBJECT: Implementation of a Ranked Pool System for
Apprenticeship Enrollment**

WHEREAS, the International Union of Painters and Allied Trades (IUPAT) is committed to fostering diversity, equity, and the highest standards of training in recruiting new apprentices;

WHEREAS, a Ranked Pool system provides a more equitable process for bringing in apprentices by ensuring access to a larger and more diverse group of potential members;

WHEREAS, the Ranked Pool method ensures that the best candidates with the highest chances of success are selected for our training programs, thereby enhancing the quality and reputation of the IUPAT;

WHEREAS, the adoption of a Ranked Pool system better balances the control of selecting apprentices between contractors and the union, which can better evaluate and rank candidates for more equitable outcomes;

WHEREAS, significant U.S federal legislative initiatives such as the Infrastructure Investment and Jobs Act, the Inflation Reduction Act, the CHIPS & Science Act, and others have created an unprecedented demand for skilled labor in the finishing trades industry;

WHEREAS, it is estimated that approximately 9,000 new apprentices are needed immediately to secure the future of the finishing trades industry and to perform the work that is on the horizon as a result of these investments;

WHEREAS, during a transitional period, it is practical to implement a dual enrollment system allowing both intent to hire by contractors and the Ranked Pool system to coexist, facilitating a smooth transition and accommodating various operational realities of our local unions and training centers;

THEREFORE BE IT RESOLVED, that all IUPAT Training Funds will conduct a thorough review of their current apprenticeship enrollment processes and make necessary revisions to enhance fairness and effectiveness. Training fund reviews shall be complete no later than January 1, 2026. During the review, funds should look for opportunities to integrate Ranked Pool provisions into their programs, thereby ensuring that the selection process aligns more closely with IUPAT's commitment to diversity, equity, and the highest standards of training.

BE IT FURTHER RESOLVED, that during the transitional period, which must end prior to the next IUPAT Convention, training programs may operate a dual enrollment system that includes both the intent to hire by contractors and the Ranked Pool system to ensure a seamless transition;

BE IT FURTHER RESOLVED, that after the transitional period contractor referrals and intent to hire will become part of the weighted average within the Ranked Pool system;

BE IT FURTHER RESOLVED, that the International Finishing Trades Institute (iFTI) will collaborate with the GPAC Training Subcommittee and third-party experts to develop a standardized Ranked Pool process template. This collaboration aims to provide a comprehensive and uniform guideline for Training Funds to implement the Ranked Pool System, ensuring that the process supports diversity, equity, and excellence in apprentice

selection across all participating funds, in alignment with IUPAT's commitment to high standards and inclusivity in training.

BE IT FINALLY RESOLVED, that this resolution will enhance the IUPAT's capability to train highly skilled professionals, promote equitable access to training opportunities, and strengthen the overall workforce within the unionized trades, thereby enabling the IUPAT to meet the demands of upcoming projects and secure the future of the industry.
